Re: Permits

Dear Ms. Bolden or responsible official:

The Division of Air Pollution Control is completing file reviews to identify permits approaching their expiration date. It has come to our attention that permit numbers 968846P, 968848P, 968852P, 868849P, and 968853P are due to expire on September 1, 2015.

If these sources have begun operations, please submit complete operating permit applications and start-up certifications if required. However, if start-up has not occurred, it may be necessary to request an amendment to extend the permit's expiration date.

Application form CN-0730 (APC 100) is located at (<http://www.tn.gov/environment/permits/airoper.shtml>). You now have the option of submitting your application via email to Air.Pollution.Control@tn.gov. The submittals must be signed, dated, and in PDF format. If preferred, paper documents can be mailed to the address found on the application.

Please ensure all conditions of this permit have been met, including other possible deadlines and record keeping requirements.

Should you have any questions, feel free to contact me at (615) 687-7046 or Bill.McCabe@tn.gov. If the application process has already begun, please disregard this letter.

Sincerely,

Bill McCabe, Manager
Nashville Environmental Field Office
Tennessee Division of Air Pollution Control
